

Miracle Power Products Corporation  
*Specialty Lubricants for the Automotive Industry*

The **ORIGINAL** Dry Graphite Film

- Over 60 years of proven performance  
Manufactured in the U.S. since 1952
- *Preferred by leading Race Teams*
- Contains only the finest graphite particles available  
One micron or smaller  
Even film consistency -- spray as thin or thick as needed  
Greater spray control  
Non-settling formula
- Contains no CFC's
- Heat tolerant up to 3000 °F -- highest temp resistance available
- Air dries at room temperature in 2 to 3 minutes
- Provides "clean" lubrication
- Repels dust and dirt
- Prevents rust and corrosion
- ASSURES positive initial lubrication
- Maintains thicker oil films on bearing surfaces
- Covers discolorations on metals - gives an attractive black finish
- Perfect lubricant for around the shop maintenance (garage doors, tools, electrical switches, chains and cables, etc.)
